WALLCOVERING MATERIAL OPTIONS

RED WALL MURAL

RESIDENTIAL NON-WOVEN VINYL (TYPE 1)

Our residential non-woven vinyl is ideal for homes, boutique projects, and decorative spaces where flexibility and finish are key. It’s thinner than standard commercial vinyls, making it easier to handle and install in tight or detailed areas.

Key Features:

- **Composition:** Non-woven backing with a vinyl facing.
- **Texture:** Available in 6–7 options — from smooth to embossed surfaces, depending on the desired aesthetic [close-up video HERE].
- **Width:** Printed up to 40" wide.
- **Weight & Thickness:** 13 Oz.
- **Seams:** Standard butt-up joint (no double-cut required).
- **Workability:** Easy to stretch and adjust around angles, corners, and moldings.

LEAD TIME - 7-9 BUSINESS DAYS

ANY DESIGN CAN BE PRINTED

COMMERCIAL VINYL (TYPE 2)

Our commercial-grade vinyls are printed on Dreamscape® substrates — the industry standard for durable, high-traffic wallcoverings. This material is thicker, more rigid, and built to withstand heavy wear while maintaining a refined finish. Meets all standards and protocols of Type 2 wallcovering.

Key Features:

- **Composition:** 100% solid vinyl with fabric backing.
- **Texture:** Multiple options available — the most popular being Dreamscape Suede, used in over 90% of our commercial projects.
- **Width:** Printed up to 52" wide.
- **Weight & Thickness:** 20 Oz.
- **Seams:** 1–2" overlap and double-cut technique required for a seamless finish (we can also pre-trim it for you if needed)
- **Durability:** Designed for high-traffic and commercial interiors (hotels, restaurants, offices). General specs can be reviewed HERE.
- **Full Architect’s Specifications:** Detailed specs can be reviewed HERE.

Additional Textures Available (other Dreamscape Type II finishes):

- Grass Cloth – Woven-look texture that mimics natural fibers.
- Artistic Canvas – Fine artist-canvas weave for a painted-look finish.
- Linen – Refined fabric texture with a classic textile grain.
- SandBlast – Lightly stippled surface for a dimensional, tactile effect.
- Mystical – Smooth texture with a faint shimmer that catches light beautifully.
